# West London Orthodontist

westlondonorthodontist.co.uk | London, UK | Prepared for Dr Chaw-Su Kyi

A specialist orthodontic studio with a 5.0 Google rating and Invisalign focus is a strength, but unclear fees and mixed names appear to cost you consultations.

## What I found on your website

| What I saw | What it costs you | The fix |
|---|---|---|
| The Invisalign consultation appears labelled free but requires a 30 pound deposit, and a 95 pound children's consultation fee appears next to a From 95 pounds monthly plan. | Unclear fees confuse patients and cost bookings. | **One clear fees section.** |
| The practice appears named West London Orthodontics in the FAQ and West London Orthodontist elsewhere, and the award title appears in two versions. | Mixed names and titles weaken a premium brand. | **One brand name and one verified award title.** |
| The email address appears only as an obfuscated placeholder, and a second address at 23 Harley Street appears in the footer with no explanation. | Patients cannot tell where to go or how to write to you. | **A readable contact email and one clear locations page.** |
| The text 'Swipe to watch' appears with only one written testimonial, the practice tour film appears with no player, and the footer appears to show 'Last updated 30 October 2026'. | Missing media and odd dates make the site look unfinished. | **Working video and review blocks.** |

## What your new website will do for West London Orthodontist

- One clear fees section.
- One brand name and verified award.
- A readable email, clear locations, working video and reviews.
