WEBSITE GROWTH AUDIT

Raha Medical Clinics

rahahealth.com.sa | Riyadh | Prepared for the Raha team

Listed prices and WhatsApp booking are strengths, but mixed names, Arabic text on the English page and no doctor names or reviews appear to cost you patients.

What I found on your website

What I saw	What it costs you	The fix
The page calls the clinic Dermatology and Aesthetic Clinic, Dermatology and Cosmetic Clinic, Raha Medical Complex, Raha Medical Clinics and Raha Health Services.	Changing names confuse patients and weaken search visibility.	**One clear brand name.**
Arabic price labels and Arabic WhatsApp text appear on the English page, the footer booking text mentions a Beauty & Skincare page that does not exist, and two list items are numbered 10 and 11 while the rest are not.	Mixed language and leftover text confuse English speaking patients.	**Clean English and Arabic versions.**
The Location & Working Hours heading has no address or map, the same insurance logo repeats about five times, and many images have no descriptions.	Patients cannot find you easily and the page feels unfinished.	**A map with hours and a clean insurance section.**
Every Book now button opens WhatsApp with no on site form, and the page shows no named doctors, testimonials or before and after results.	Patients who prefer a form or want proof find neither.	**A booking form plus named doctors and results.**

What your new website will do for Raha Medical Clinics

- One brand name and clean English and Arabic pages.
- A booking form with WhatsApp and a map with hours.
- Named doctors, reviews and captioned results.
