WEBSITE GROWTH AUDIT

City Dental Center

citydentalcenter.ca | Danforth, Toronto, Canada | Prepared for Dr Berzin

A Danforth practice with over 25 years of experience is a strength, but leftover test text in the booking form and no hours appear to cost you new patients.

What I found on your website

What I saw	What it costs you	The fix
The booking form appears to include the dropdown text 'Test Optio' and repeats it in the Request Appointment modal.	Patients see unfinished test text exactly where they try to book, which looks careless.	**A clean labeled booking form with real options.**
The Book an Appointment button appears to link to a contact form with no visible submit button, and no online booking appears.	Patients who are ready to book may give up before the request is sent.	**A working booking form with a visible submit button and confirmation.**
No office hours or emergency hours appear, and the page appears to say both 25 years and more than 30 years of service.	Patients cannot tell when you are open, and mixed claims weaken trust.	**Visible hours and one verified experience claim.**
Only three testimonials appear with no star ratings or platform, one reviewer name reads like a gaming handle, and the stray word Image appears above photos.	Thin and odd proof gives a new patient little reason to choose you over another dentist.	**Real Google reviews with ratings and a clean page.**

What your new website will do for City Dental Center

- A clean booking form with a visible button.
- Visible hours and one verified claim.
- Real reviews and a polished layout.

How it works

1. **15 minute call**
   I show you a preview of your new design. No cost.
2. **Approve the look**
   You pick changes. I build in days, not months.
3. **Launch and track**
   Booking, WhatsApp and forms tested on mobile before go live.

Book your 15 minute preview call
