WEBSITE GROWTH AUDIT

Oakville Place Dental

dentistoakville.com | Oakville, Canada | Prepared for Dr Steven Solomon

A long established Oakville practice with CEREC same visit crowns is a strength, but a demo link and mixed claims appear to cost you new patients.

What I found on your website

What I saw	What it costs you	The fix
The Invisalign card appears to link to a page ending in -demo, and the same card appears twice with a second link.	A patient interested in Invisalign may land on a test page.	**One live Invisalign page.**
The FAQ appears to say over 30 years in practice while the footer says almost 25 years, and the footer address appears without the city name.	Mixed claims and an incomplete address make the practice look careless.	**One verified experience claim and a full address.**
The Request an Appointment form appears to ask only for name, phone and preferred time of day, with no date, and the heading 'Sevices' appears misspelled.	Patients cannot pick a real slot, and typos weaken trust.	**A real booking calendar and proofread headings.**
The Accreditations section appears to show university logos that are not accreditations, and no patient reviews or ratings appear.	Misleading badges and missing reviews give new patients little reason to trust you.	**Real accreditations and Google reviews with ratings.**

What your new website will do for Oakville Place Dental

- One live page per service.
- A real booking calendar.
- Accurate credentials and visible reviews.

How it works

1	**15 minute call** I show you a preview of your new design. No cost.
2	**Approve the look** You pick changes. I build in days, not months.
3	**Launch and track** Booking, WhatsApp and forms tested on mobile before go live.

Book your 15 minute preview call
