WEBSITE GROWTH AUDIT

The Aesthetics Clinic

theaestheticsclinic.ae | Al Furjan, Dubai | Prepared for the clinic team

A clear results focus and WhatsApp follow up are strengths, but leftover editor text, a dead call to action and one testimonial appear to cost you bookings.

What I found on your website

What I saw	What it costs you	The fix
The email and phone links in the Contact section point to a Google search page, and Start your Treatment Journey links back to the homepage.	A patient who taps to call or email cannot, and the main button goes nowhere.	**Tested call and email links and a real booking button.**
Visible leftovers include 'Describe your image', 'Use tab to navigate through the menu items', 'top of page', and a 'Thank you!' message before any form is sent.	Editor text makes a medical brand look unfinished.	**A clean page with no leftover text.**
The service dropdown shows Choose an option with no options, and Appointment sends people to a separate page.	Enquiries are lost at the form.	**A working form on the page.**
One testimonial from a first name and initial is shown, with no before and after images, doctor names or credentials, and the name appears as The Aesthetics Clinic and The Aesthetic Clinic.	Cosmetic patients decide on proof and see almost none.	**Reviews, captioned results and named practitioners.**

What your new website will do for The Aesthetics Clinic

- Working call, email and booking buttons.
- A clean page and a form with treatment options.
- Reviews, captioned results and named practitioners.

How it works

1. **15 minute call**
   I show you a preview of your new design. No cost.
2. **Approve the look**
   You pick changes. I build in days, not months.
3. **Launch and track**
   Booking, WhatsApp and forms tested on mobile before go live.

Book your 15 minute preview call
