WEBSITE GROWTH AUDIT

Beauty Clinic Riyadh

beautyclinicriyadh.com | Riyadh, Saudi Arabia | Prepared for the Beauty Clinic Riyadh team

A Riyadh aesthetic clinic appears to lose consultations because its main button goes nowhere and no phone or address appears.

What I found on your website

What I saw	What it costs you	The fix
The main Get Started button appears to link to #, and the Treatments, Weight Loss and Laser Treatment menu items appear to link to #.	Patients ready to book hit a dead end.	**A working booking button and menu pages.**
About ten submenu items appear to be labelled Menu Item and link to #, and all five doctor profile links appear empty.	Placeholder menus make the clinic look unfinished and hide your doctors.	**Real labels and doctor profile pages.**
No phone number, address or opening hours appear on the page.	Patients cannot call, visit or know when you are open.	**Visible phone, address and hours.**
The same testimonial appears twice, doctor bios appear to end in ellipses, and no before and after results appear.	Thin and repeated proof does not convince patients for high value procedures.	**Real reviews, full doctor bios and a results gallery.**
