WEBSITE GROWTH AUDIT

Dentists at Work

dentistsatwork.weebly.com | Toronto, Canada | Prepared for the Dentists at Work team

A Bay Street dental office appears to lose patients to a placeholder phone number, a free builder address and a thin homepage.

What I found on your website

What I saw	What it costs you	The fix
The phone number appears as +1 647 1234567 and the fax as +1 647 2468100, which look like placeholder numbers.	Patients who call the number shown may reach no one, and you never see the lost booking.	**Your real phone number everywhere.**
The site appears to run on a free Weebly address, with a footer that says Powered by Create your own unique website.	A builder advert in the footer looks temporary for a downtown dental office.	**Your own domain and a branded footer.**
The homepage text appears short, with no patient reviews, fees or insurance details shown.	Patients compare offices on price, insurance and reviews before they book.	**Reviews, a fee guide and insurance information.**
No WhatsApp appears, and booking appears to depend on a Book Here link.	Patients who want a quick answer message other offices first.	**Online booking on the page and WhatsApp.**

What your new website will do for Dentists at Work

- Real phone number.
- Own domain.
- Reviews, fees and booking.

How it works

1 **15 minute call**
I show you a preview of your new design. No cost.

2 **Approve the look**
You pick changes. I build in days, not months.

3 **Launch and track**
Booking, WhatsApp and forms tested on mobile before go live.

Book your 15 minute preview call
