WEBSITE GROWTH AUDIT

F. Jabri Law Office

ftcjabri.wixsite.com/mysite | Riyadh and Jeddah, Saudi Arabia | Prepared for the Jabri Law Office team

A Saudi law office with Riyadh and Jeddah branches appears to lose international clients to a free builder address, a generic page title and a free mail address.

What I found on your website

What I saw	What it costs you	The fix
The site appears to run on a free Wix address, with a banner that says This website was built on Wix.	A free builder address makes a law office look temporary.	**Your own domain and a clean branded site.**
The page title appears to read HOME Mysite.	A default title means search results do not name the firm.	**A title with the firm name and city.**
The contact email appears to be a yahoo.com address instead of one on the firm's own domain.	A free mail address makes international clients doubt the firm.	**An email address on your own domain.**
No WhatsApp appears next to the contact details.	Many clients in Saudi Arabia prefer to message first, and a firm that replies on WhatsApp first wins the consultation.	**A one tap WhatsApp button.**

What your new website will do for F. Jabri Law Office

- Own domain.
- Proper title.
- Firm email and WhatsApp.

How it works
