WEBSITE GROWTH AUDIT

Harley Street Medical Centre

aestheticclinic.ae | Marina Village, Abu Dhabi | Prepared for the clinic team

The clinic has consultants in plastic surgery, dermatology and gynaecology, with a WhatsApp widget and booking buttons in the header and footer.

What I found on your website

What I saw	What it costs you	The fix
The Book an Appointment section shows a doctor dropdown but no visible form fields, so it looks empty or broken. Booking depends on a link to another page.	A patient who reaches the booking section and sees an empty form leaves without booking.	**A short working booking form on the page with a confirmation message.**
The page title says Aesthetic Clinic Abu Dhabi, while the footer says Harley Street Medical Centre, and doctor profiles link to two domains (aestheticclinic.ae and hsmc.ae).	A patient who is not sure which clinic they are looking at, or who lands on a second website, loses trust.	**One consistent brand name and all profiles on one domain.**
Typos such as a aesthetic clinic, inconsistent doctor names (Dr Amira and Dr. Amira) and an unclear line, Breast Harmonization 1 to 2 cups in 15 min.	Typos and unclear claims in a medical clinic's copy raise doubts about the care and the claims.	**A proofread build with clear, consistent doctor profiles.**
Only three testimonials show, with no ratings or dates, and no before and after images appear on the homepage. The WhatsApp Us widget shows no number.	Aesthetic patients decide on visible results, and a phone link that fails loses calls.	**A captioned results gallery, dated reviews and a tested phone and WhatsApp link.**

What your new website will do for Harley Street Medical Centre

- A booking first homepage with a working form, WhatsApp and a clear call to action for each specialty.
- Real proof beside every button: dated reviews and captioned results for each doctor.

How it works

1. **15 minute call**
   I show you a preview of your new design. No cost.
2. **Approve the look**
   You pick changes. I build in days, not months.
3. **Launch and track**
   Booking, WhatsApp and forms tested on mobile before go live.
