WEBSITE GROWTH AUDIT

Pearl Dental Clinic

pearldentalclinics.com | Business Bay, Dubai | Prepared for Dr. Salahudeen and team

Pearl Dental has awards, an Invisalign Platinum badge and two lead forms. Leftover text and dead menu links make the page look unfinished right where a patient decides to book.

What I found on your website

What I saw	What it costs you	The fix
Old menu labels such as Gum disease treatment-old and Tooth Filling-old are visible in the mobile menu, and the text Thank you for contacting Pearl Dental Clinic appears outside any form.	Leftover labels and messages on a mobile page look unfinished to a patient who is about to trust you with treatment.	**A clean menu and hidden confirmation messages that show only after a form is sent.**
Our Team, Patient Guide and Media in the main menu link to #. Dental tourism and veneers each link to two different URLs, and the 800 PEARLS phone link has no country code.	Dead links lose visitors and a phone link that does not dial from abroad loses your dental tourism patients.	**Working menu links and a phone link that dials from anywhere.**
Dr. Divya Nair is titled Peridontist instead of Periodontist, and reviews name Dr. Mahmood and Dr. Salah, who are not in Our Doctors.	A typo in a specialist title and unlisted doctors in reviews raise doubts about who will treat the patient.	**Proofread titles and a team list that matches your reviews.**
Three testimonials are cut off with [...] and carry no stars or dates. No before and after cases or prices appear, though affordable pricing is claimed.	Patients choose on visible results and price. Cut off reviews and a missing price make them compare other clinics.	**Full, dated reviews, captioned before and after cases and starting prices.**
