WEBSITE GROWTH AUDIT

Royal Clinic Saudia

royalclinicsaudia.com | Riyadh | Prepared for the Royal Clinic team

A broad range of cosmetic services with a WhatsApp number are strong, but dead booking buttons and conflicting prices appear to cost you patients.

What I found on your website

What I saw	What it costs you	The fix
The Free appointment and BOOK APPOINTMENT buttons both link to #, and the Resources menu item also links to #.	A patient ready to book hits a dead button.	**Booking buttons linked to a working form.**
Menu items point to the wrong pages: Breast Reduction goes to a dermatology page and Dimple Creation goes to laser treatments.	Patients looking for a procedure land on a different treatment.	**Correct links for every treatment.**
Full Rhinoplasty shows two different price pairs, 28,000 and 12,500 SAR next to 15,000 and 6,000 SAR, and the longevity summary conflicts with the detail.	Conflicting prices raise doubts about every offer.	**One verified price and claim set.**
Typos such as 'creaates', 'your your smile' and 'every veneer is are thin' appear, and the brand shows as both Enfield Royal Saudia and Royal Clinic Saudia.	Errors and changing names weaken trust in cosmetic care.	**Proofread copy and one brand name.**

What your new website will do for Royal Clinic Saudia

- Working booking buttons and correct treatment links.
- One verified price list and consistent brand name.
- Proofread copy with named doctors and captioned results.

How it works

1	**15 minute call** I show you a preview of your new design. No cost.
2	**Approve the look** You pick changes. I build in days, not months.
3	**Launch and track** Booking, WhatsApp and forms tested on mobile before go live.
