WEBSITE GROWTH AUDIT

Shiraz Cosmetic and Medical Clinic

shirazcosmeticandmedicalclinic.com.au | Chatswood, Sydney | Prepared for the Shiraz team

A wide treatment menu and accreditations are strong, but visible typos, failed review widgets and a booking form that appears to show no fields lose enquiries.

What I found on your website

What I saw	What it costs you	The fix
Raw shortcodes [trustindex no-registration=google] and [grw id=7885] appear as text where Google reviews should load.	Your best proof does not show and the page looks broken.	**Working live review widgets.**
Typos appear in the menu and copy: Chtswood, Qualified and Experience Doctors, frindly, tightning, rejuvanation and micro-needing in page addresses.	Spelling errors in a medical clinic reduce trust and hurt search ranking.	**Proofread copy and clean page addresses.**
The booking section appears to list options as plain text with no visible fields or submit button, and no WhatsApp or chat option appears.	A patient ready to book may not be able to, and every lost enquiry is lost revenue.	**A working booking form and WhatsApp button.**
Eyebrow Hair Transplant links to the laser page, Non-Surgical Facelift links to the thread lift page, and the Before & After section shows only an image and a link.	Wrong links send people to the wrong treatment and results are not shown.	**Correct links and a real before and after gallery.**

What your new website will do for Shiraz Cosmetic and Medical Clinic

- Working review widgets and a named doctor profile with credentials.
- A visible booking form and a WhatsApp button on every page.
- Correct treatment links and a captioned before and after gallery.

How it works

1	**15 minute call** I show you a preview of your new design. No cost.
2	**Approve the look** You pick changes. I build in days, not months.
3	**Launch and track** Booking, WhatsApp and forms tested on mobile before go live.

Book your 15 minute preview call
