WEBSITE GROWTH AUDIT

Smile by Design

smilebydesign.com.au | Bondi Junction and North Sydney | Prepared for Dr Michael Tam

Two clinics, WhatsApp and a named dentist are good foundations, but there is no proof of results and the booking path leaves your site.

What I found on your website

What I saw	What it costs you	The fix
There is no booking form on the page. Make a booking hands off to an external site or opens a popup.	Patients who leave your site to book are less likely to finish.	**A short booking form on your own site.**
The menu items About Us, Cosmetic Dentistry Sydney, General Dentistry and Emergency Dentistry link to #, and several icon links have no text.	Dead menus and unlabelled icons lose visitors.	**Working menus and labelled buttons.**
No patient reviews or before and after results appear, and the Meet Dr. Michael Tam section is a video thumbnail with no written bio.	Cosmetic patients choose on proof and on who treats them.	**Reviews, captioned results and a written dentist profile.**
The text has a broken sentence (are.From single-tooth), a misspelt logo (Acaemdy) and Phillips Zoom for Philips. Dr Michael Tam appears with and without a full stop.	Errors on a cosmetic dentistry page lower trust.	**Proofread copy.**

What your new website will do for Smile by Design

- An on-site booking form and WhatsApp for both clinics.
- Reviews, captioned results and a written profile for Dr Tam.

How it works

1. **15 minute call**
   I show you a preview of your new design. No cost.
2. **Approve the look**
   You pick changes. I build in days, not months.
3. **Launch and track**
   Booking, WhatsApp and forms tested on mobile before go live.

Book your 15 minute preview call
