WEBSITE GROWTH AUDIT

SV Orthodontics

svorthodontics.com | Toronto, Canada | Prepared for Dr Elise Vincelette and Dr Raman Samra

A midtown Toronto orthodontic practice with dual board certified doctors and five locations is a strength, but dead menu links and a blank results gallery appear to cost you patients.

What I found on your website

What I saw	What it costs you	The fix
The menu items About Us, Services, Patient Education and Locations appear to link to #, and the sticky bar Call and Treatments links appear to point to anchors that do not exist.	Patients cannot find locations or treatments, and the call button may not work.	**Working menu pages and a working call button.**
The Real Patients, Real Results gallery appears to show ten After and Before labels with no images, and the Learn More About Us heading appears with no content.	An empty results section removes your strongest proof.	**Real before and after cases.**
The page lists five locations but the body appears to describe one office at 3016 Yonge Street, and the free assessment appears to be described three different ways.	Patients cannot tell where to go or what the offer is.	**One clear locations section and one offer.**
Booking appears to be a request form only, article excerpts appear cut off mid sentence, and no testimonials appear.	Patients wait for a callback, and cut text and missing reviews weaken trust.	**On site booking, finished excerpts and visible reviews.**

What your new website will do for SV Orthodontics

- Working menu and call button.
- Real before and after cases.
- One locations section and offer, plus booking and reviews.

How it works

1	**15 minute call** I show you a preview of your new design. No cost.
2	**Approve the look** You pick changes. I build in days, not months.
3	**Launch and track** Booking, WhatsApp and forms tested on mobile before go live.

Book your 15 minute preview call
