WEBSITE GROWTH AUDIT

The Brace Orthodontic Practice

thebrace.com | Liverpool Street, London | Prepared for the Brace team

Two specialist orthodontists, 784 reviews and a clear free consultation offer are strong, but a wrong phone link and conflicting numbers cost you patients.

What I found on your website

What I saw	What it costs you	The fix
The emergency line shows 020 7247 5768 but the link dials 02072475678, so tapping it reaches a different number.	A patient in pain who taps to call may reach the wrong place.	**A checked, working click to call link.**
The cookie banner shows Manage {vendor_count} vendors and several {title} entries, and menu labels leak into the page (Close Treatments Open Treatments).	Unfilled code looks careless on a first screen.	**A clean banner and tidy menus.**
The page says More than 15,000 patients treated and 10,000+ smiles, 30 years and 20 years of experience, and More than 600 reviews next to 4.8 - 784 User Reviews.	Conflicting numbers make patients doubt every claim.	**One verified set of figures.**
The header Book a free consultation goes to /special-offer/ while others go to /consultation/, the same page is labelled Kids+ and Teens+, no before and after shows, and the awards are not named.	Mixed booking paths and unnamed awards reduce trust.	**One booking path, captioned results and named awards.**

What your new website will do for The Brace Orthodontic Practice

- A working call link, one booking path and a clean first screen.
- One verified set of figures with captioned before and after results.

How it works

1. **15 minute call**
   I show you a preview of your new design. No cost.
2. **Approve the look**
   You pick changes. I build in days, not months.
3. **Launch and track**
   Booking, WhatsApp and forms tested on mobile before go live.
