WEBSITE GROWTH AUDIT

416 Dentistry

416dentistry.com | Toronto, Canada | Prepared for Dr Jason Adinata and team

A modern Scarborough dental studio appears to lose new patients to a 2021 footer, a stuffed page title and odd menu labels.

What I found on your website

What I saw	What it costs you	The fix
The footer appears to read 2021.	Five old years suggest the practice is not active online.	**A footer that updates by itself.**
The page title appears to run on with many keywords such as Cosmetic Dentist, Dental Implants, Toronto Invisalign and Scarborough Dentistry.	Search results cut it off and the long title looks spammy.	**A short title with the practice name and suburb.**
Menu labels such as hello, First and design safEty appear with odd casing.	Odd labels confuse new patients and look unfinished.	**Clear plain menu labels.**
No WhatsApp appears, only a phone number and a book button.	Younger patients choose practices they can message in seconds.	**WhatsApp or text booking on every page.**

What your new website will do for 416 Dentistry

- Current footer.
- Clean title.
- Clear menu and text booking.

How it works

1. **15 minute call**
   I show you a preview of your new design. No cost.
2. **Approve the look**
   You pick changes. I build in days, not months.
3. **Launch and track**
   Booking, WhatsApp and forms tested on mobile before go live.
