WEBSITE GROWTH AUDIT

Davidson & Co

davidsoncolaw.com | Sheikh Zayed Road, Dubai | Prepared for the Davidson & Co team

Davidson & Co has an established name and strong client testimonials. The site does not convert the visitors it already attracts, because its main enquiry buttons do not work.

What I found on your website

What I saw	What it costs you	The fix
The Enquire Now buttons in the header and hero, and the Subscribe Now button, link to # so they go nowhere. There is no enquiry form.	Every visitor who clicks Enquire Now and sees nothing happen is a lost client, and you never learn they tried.	**A working enquiry form and consultation booking on every page.**
The Our Awards and International Membership sections show logos with no names. Four testimonials are shown without case types, results or dates.	Unnamed awards and unspecific praise do not persuade a client choosing between firms.	**Named awards, case type labelled testimonials and your LSRA licence number displayed.**
Typos: Clink to call, relaible, enable instead of enables. The email link is webmaster@example.com and the header phone link has no country code.	A placeholder email loses messages and typos undercut a firm that sells accuracy.	**A proofread build with correct, tested contact links.**
The practices menu has 27 items and the hero text is long, pushing the call to action below the fold on a phone.	Most visitors decide in seconds on mobile. A long menu and a buried button send them away.	**Grouped practice areas and a call to action visible without scrolling.**

What your new website will do for Davidson & Co

- A conversion first homepage with a working enquiry form and booking above the fold.
- Practice areas grouped into clear categories, with a page per service written to rank in search.
- Proof where it counts: named partners, awards, labelled client results and licence details.

How it works

1	**15 minute call** I show you a preview of your new design. No cost.
2	**Approve the look** You pick changes. I build in days, not months.
3	**Launch and track** Booking, WhatsApp and forms tested on mobile before go live.
