WEBSITE GROWTH AUDIT

Dental Lounge

dentallounge.com.au | Sydney CBD and Double Bay | Prepared for Dr Verdian and team

Dental Lounge offers a free consultation, a before and after slider with 10 pairs and a payment plans page. Dead links and mismatched details weaken a practice with several clinics.

What I found on your website

What I saw	What it costs you	The fix
The Bowral navigation and footer links and the Treatments parent menu point to #. The Sydney CBD footer phone links to the Double Bay number.	A patient who clicks Bowral or calls the CBD number from the footer reaches the wrong place, and you lose the booking.	**Working links and the correct phone number for each clinic.**
The Porcelain Veneers heading has no content, Composite Veneers appears twice, and About Dental Implants repeats.	Empty and repeated sections on your highest value treatment page send patients to a competitor who explains it clearly.	**One clear page per treatment with a from price.**
Several bios use different names from their titles (Dr Kalos and Jemima, Dr Gavan and Iain), and one mentions a Balmain practice that is not a current clinic. Typos include steralisation and Dental Lounge,working.	Inconsistent doctor names and typos in a clinical site make patients doubt who will treat them.	**Verified doctor profiles and a proofread build.**
No patient reviews or star ratings appear, the only quote is from a dentist, and the before and after slider has no captions or consent notes. Every button goes to a separate booking page.	Patients choose cosmetic clinics on peer proof, and an extra click to book costs enquiries.	**Captioned results, Google reviews and a short booking form on each page.**

What your new website will do for Dental Lounge

- A proof first homepage with captioned results and Google reviews beside every booking button.
- A booking form on every page and correct details for each clinic.

How it works

1. **15 minute call**
   I show you a preview of your new design. No cost.
2. **Approve the look**
   You pick changes. I build in days, not months.
3. **Launch and track**
   Booking, WhatsApp and forms tested on mobile before go live.
