WEBSITE GROWTH AUDIT

Derma Medical Center

dermaclinic.ae | Karama Street, Abu Dhabi | Prepared for Dr. Dina Sabih and team

Derma Medical Center has a clear offer, a booking form and WhatsApp. But visible errors on the page weaken trust right where a patient decides to book.

What I found on your website

What I saw	What it costs you	The fix
The stat counters (Incredible doctors, Years of combined experience, Happy patients) read 0, next to 1 location and 3 doctors. Two images use the Elementor placeholder file.	Zeros and placeholder images make a medical clinic look unfinished at the exact moment a patient is judging it.	**Real numbers or no counters, and real clinic photos.**
The WhatsApp buttons use your landline (+971 2 444 5112), while the chat link uses a different mobile number.	A patient who taps WhatsApp on a landline gets no reply, and the booking is lost without you knowing.	**One WhatsApp number used consistently, with a pre-filled message per treatment.**
The 4.8 rating from 1000+ reviews has no source and no review text. There are no before and after cases, and the doctor videos are unlabelled links.	Patients choose a clinic on visible proof. Claims without proof do not persuade.	**A review wall pulled from your real Google reviews and captioned results.**
The booking form lists Facial, Body, Laser and Injectables but omits Plastic Surgery and Non-Surgical, and the booking anchors may not exist. Derma Medical Centre and Center are mixed.	Patients interested in your higher value services cannot choose them, and inconsistent names look careless.	**A form that matches every service, tested end to end.**

What your new website will do for Derma Medical Center

- A proof first homepage: real reviews, results and your licence beside every booking button.
- One working booking path plus WhatsApp on the right number, so a patient books in under 30 seconds.
- Treatment pages written to rank for searches like laser hair removal Abu Dhabi and Botox Abu Dhabi.

How it works

1. **15 minute call**
   I show you a preview of your new design. No cost.
2. **Approve the look**
   You pick changes. I build in days, not months.
3. **Launch and track**
   Booking, WhatsApp and forms tested on mobile before go live.
