WEBSITE GROWTH AUDIT

Doha Specialized Dental Center

dohadentalcenter.com | Doha | Prepared for Dr Issam Atta

You have three branches and 14 named doctors, but the homepage shows placeholder numbers and sends patients to a test page when they try to book.

What I found on your website

What I saw	What it costs you	The fix
Branch statistics show placeholder digits (+ 012345678900123456789 0.0123...). The Google Reviews heading has no reviews and Listed below for our doctors has no list.	Placeholder numbers and empty sections look broken and give no proof.	**Real branch details, a live review wall and a doctor list.**
Click here to book an appointment points to test2.dohadentalcenter.com. Our Services and both Read More buttons link to #. The WhatsApp us label has no number.	Patients who try to book land on a test site or nowhere, so bookings are lost.	**One tested booking path and a real WhatsApp button.**
The logo loads from a demo theme domain. Copy has errors such as valid only four our newsletter subscribers and Al Kharaitiyat zoon 71.	Template leftovers and typos weaken trust in a medical brand.	**Own logo files and proofread copy.**
The patient claim jumps from more than 80,000 to nearly a thousand a year, the name appears three ways, there are no before and after or testimonials, and the footer says 2023.	Conflicting numbers and no proof lose careful patients.	**Consistent facts, results gallery and current copy.**

What your new website will do for Doha Specialized Dental Center

- A working booking form and WhatsApp button for each branch.
- A live review wall, doctor profiles and a before and after gallery.

How it works

1 **15 minute call**
I show you a preview of your new design. No cost.

2 **Approve the look**
You pick changes. I build in days, not months.

3 **Launch and track**
Booking, WhatsApp and forms tested on mobile before go live.
