WEBSITE GROWTH AUDIT

Health and Health Center

cshealthandhealth.wixsite.com/website | Al Wakra, Qatar | Prepared for the Health and Health Center team

An Al Wakra medical and dental polyclinic appears to lose patients to a free builder address, a 2018 footer and stray page code.

What I found on your website

What I saw	What it costs you	The fix
The site appears to run on a free Wix address, with a banner that says This website was built on Wix.	A free builder address looks temporary for a clinic that asks patients to trust it.	**Your own domain and a clean branded site.**
The footer appears to read 2018.	An old year suggests the clinic may not be active.	**A footer that updates by itself.**
Stray markup characters appear at the top of the page text.	Broken code looks careless on a healthcare site.	**Clean template markup.**
A tagline in capitals claims BEST healthcare with no ratings or reviews shown, and no WhatsApp appears.	A claim with no proof is easy to doubt and patients cannot message quickly.	**Visible ratings, review quotes and WhatsApp booking.**

What your new website will do for Health and Health Center

- Own domain.
- Current footer, clean code.
- Proof and WhatsApp booking.

How it works

1. **15 minute call**
   I show you a preview of your new design. No cost.
2. **Approve the look**
   You pick changes. I build in days, not months.
3. **Launch and track**
   Booking, WhatsApp and forms tested on mobile before go live.

Book your 15 minute preview call
