WEBSITE GROWTH AUDIT

Home Estate Agents

homeea.com.au | Maroubra, Sydney | Prepared for the Home Estate team

Home Estate has five client reviews, useful tools such as a stamp duty calculator and repair request, and a modern look. Missing lead capture and small errors cost enquiries.

What I found on your website

What I saw	What it costs you	The fix
No lead capture form or chat appears on the page. The calls to action are generic (Contact Us, Start Here, Read more), and hours show Monday to Friday 9 to 5 only.	A seller or buyer browsing on a weekend has no quick way to ask, and generic buttons do not tell them what happens next.	**A short Request an appraisal form and chat on every page, with weekend options.**
The contact email shows as in the page text, the About menu's Instagram link ends in #, and the Repair Request Submit button links to the team page.	A contact email that cannot be read, a dead social link and a submit button that goes to the wrong page lose enquiries.	**A tappable email, correct social links and a form that sends to the right place.**
The Sales and Rentals headings appear with no content under them, the team page is linked at two different addresses, and an empty link sits in the page.	Empty sections and duplicate links make an agency look unfinished to a seller choosing between agents.	**Content in every section and one address for each page.**
The five reviews have no star ratings or dates, and a review has a capitalisation error: and Making the entire process stress-free. Listing cards show 2Beds and 1Baths without spaces.	Undated reviews are easy to doubt, and small errors weaken a premium look.	**Dated reviews with ratings, linked to your Google profile, and clean listing cards.**

What your new website will do for Home Estate Agents

- Proof beside every button: dated reviews with ratings, your named agents and recent results.
- Suburb pages written to rank for searches like real estate agent Maroubra and property appraisal Eastern Beaches.
