WEBSITE GROWTH AUDIT

KIMSHealth Saudi Arabia

kimshealth.co | Saudi Arabia | Prepared for the KIMSHealth Saudi team

A large Saudi hospital group appears to lose dermatology bookings to conflicting phone numbers and a booking pop up that may not work.

What I found on your website

What I saw	What it costs you	The fix
The visible number +966 13 3620094 appears to link to a different number, and the booking pop up appears to show a Bahrain country code.	Patients may call the wrong number or abroad.	**One verified number per branch.**
The WhatsApp link appears to contain a space after the slash, and the booking form appears to show a Send OTP button with no visible input and a Select Branch menu with no options.	Ready patients cannot complete a booking.	**A tested booking form.**
The Available At heading appears to be followed by unrelated text with no branch addresses or hours.	Patients cannot find where to go.	**Branch addresses and hours.**
Doctor profiles appear to list only languages and locations, and no testimonials, prices or outcomes appear for cosmetic procedures.	Cosmetic patients choose providers who show who treats them and the results.	**Qualifications, reviews and starting prices.**

What your new website will do for KIMSHealth Saudi Arabia

- One number per branch.
- Working booking.
- Addresses, hours and proof.

How it works

1. **15 minute call**
   I show you a preview of your new design. No cost.
2. **Approve the look**
   You pick changes. I build in days, not months.
3. **Launch and track**
   Booking, WhatsApp and forms tested on mobile before go live.

Book your 15 minute preview call
