WEBSITE GROWTH AUDIT

MedVSPA

medvspa.com | Yorkville, Toronto | Prepared for the MedVSPA team

An RN-led Yorkville clinic since 2011 with Google reviews, but every main booking button on the homepage links to nothing.

What I found on your website

What I saw	What it costs you	The fix
Book Now, Book Consultation and Schedule an appointment all link to #, in the header and the footer.	Every booking button is dead, so ready clients cannot book from the page.	**Booking buttons linked to your booking system.**
System messages (Your message was sent successfully! and Something went wrong, try refreshing) appear in several places, and a stray x shows near the top.	Leftover messages make the site look unfinished.	**Clean forms with messages shown only after sending.**
Typos and mismatches include Scollard Str., Crows Feet, MedVSpa and MedVSPA, and Lymph Drainage against Lymphatic Drainage.	Small errors reduce trust in a medical clinic.	**Proofread copy and one brand spelling.**
Before and After is a single teaser image with a link, reviews name Elena in one place and Olena in another, and there is no WhatsApp option.	Clients want results and a quick way to ask.	**A before and after gallery, a named team and a messaging option.**

What your new website will do for MedVSPA

- Working booking buttons on every page.
- A results gallery, consistent names and a simple messaging option.

How it works

1. **15 minute call**
   I show you a preview of your new design. No cost.
2. **Approve the look**
   You pick changes. I build in days, not months.
3. **Launch and track**
   Booking, WhatsApp and forms tested on mobile before go live.

Book your 15 minute preview call
