WEBSITE GROWTH AUDIT

My Dental Clinic

mydentalclinic.ae | Dubai, UAE | Prepared for Dr Sarah Jamal and team

A Dubai clinic with 225 Google reviews appears to lose bookings to dead buttons and a hard to find booking form.

What I found on your website

What I saw	What it costs you	The fix
Three Discover more buttons and the Treatments menu appear to link to #, so they go nowhere.	Patients exploring treatments hit dead ends.	**Working pages behind every treatment link.**
The Book now button appears to link to the footer, not the booking form, and Contact points to two different anchors.	The main booking path is hard to find, so ready patients leave.	**One clear booking button that opens the form.**
Two Call Us buttons appear to dial different numbers, and several team names differ between the team page and reviews.	Patients may call the wrong line and doubt who treats them.	**One verified number and consistent doctor names.**
Image labels appear to be generic or in Italian, and no prices or captioned before and after examples appear for veneers or whitening.	Patients compare clinics that show results and prices.	**Captioned results and starting prices.**

What your new website will do for My Dental Clinic

- Working treatment pages.
- One booking button and number.
- Results and starting prices.

How it works

1	**15 minute call** I show you a preview of your new design. No cost.
2	**Approve the look** You pick changes. I build in days, not months.
3	**Launch and track** Booking, WhatsApp and forms tested on mobile before go live.

Book your 15 minute preview call
