WEBSITE GROWTH AUDIT

PMP Law

pmplaw.ca | Mississauga, Canada | Prepared for Paras Patel

A Mississauga firm offering real estate, wills and notary services is a strength, but a 2023 footer and thin lawyer proof appear to cost you consultations.

What I found on your website

What I saw	What it costs you	The fix
The footer appears to read 2023, and the text 'Thanks for submitting!' appears as static text beside the form.	An old date and a premature success message make visitors doubt the form works.	**A current footer and a message that shows only after submission.**
The Wills and Estates link appears to point to /will-sestates, and the 'Use tab to navigate through the menu items' instruction appears visibly.	A mistyped link may send clients to an error page, and developer text looks unfinished.	**Correct links and hidden helper text.**
The services appear different in the intro and the menu (Family Law, Notary Public and Civil Litigation appear in one but not the other).	Mixed service lists confuse a client choosing a lawyer.	**One consistent services list.**
The main Book a Free Consultation button appears only near the bottom, and no testimonials, case results or lawyer bios appear.	Clients who do not scroll never see the call to action, and they have no proof to trust you.	**A top of page consultation button and visible lawyer bios.**

What your new website will do for PMP Law

- A current footer and working form message.
- Correct links and one services list.
- A top of page call to action and visible bios.

How it works

1. **15 minute call**
   I show you a preview of your new design. No cost.
2. **Approve the look**
   You pick changes. I build in days, not months.
3. **Launch and track**
   Booking, WhatsApp and forms tested on mobile before go live.
