WEBSITE GROWTH AUDIT

Queens Dermatology Centre

queensdermacenter.com | Doha | Prepared for the Queens Dermatology team

You offer a wide range of skin treatments, but the homepage has placeholder content, broken links and nothing that proves quality.

What I found on your website

What I saw	What it costs you	The fix
The 'WhatsApp us' button is a phone call. Phone links contain spaces (tel: +974 ...). Contact email is a Gmail address under the Pearl Medical Center name.	Patients who tap to chat or call may fail, and a different brand in the email confuses them.	**Tested WhatsApp and call buttons, brand email.**
Typos 'well expirenced doctors' and 'Mesotheraphy'. Morpheus Pro 8 and Morpheus 8 Pro both appear.	Spelling errors on the main page hurt trust in a medical brand.	**Clean consistent copy for every treatment.**
Three feature cards link to #, Read More goes to a developer domain, and a hero image is a placeholder.	Broken pages and demo content look unfinished.	**Working links and real clinic photos.**
No reviews, no named doctors, no before and after. The booking Send box shows no visible fields.	Without proof or a clear form, visitors do not book.	**Doctor profiles, Google reviews and a working form.**

What your new website will do for Queens Dermatology Centre

- Working WhatsApp, call and booking form on every page.
- Doctor profiles, reviews and before and after results for each treatment.

How it works

1. **15 minute call**
   I show you a preview of your new design. No cost.
2. **Approve the look**
   You pick changes. I build in days, not months.
3. **Launch and track**
   Booking, WhatsApp and forms tested on mobile before go live.
