WEBSITE GROWTH AUDIT

Smile Al Reem Dental Center

smilealreem.com | Abu Dhabi, UAE | Prepared for the Smile Al Reem team

A multi dentist Abu Dhabi centre appears to lose bookings to formatting errors, mixed domains and unnamed proof.

What I found on your website

What I saw	What it costs you	The fix
Opening hours appear with stray formatting marks such as four asterisks, and headings appear with stray underscores.	Visible formatting errors make the practice look unfinished and make hours hard to read.	**Clean, readable hours and headings.**
Service cards appear to point to a different domain than the header and booking links, and some images appear to load over an insecure http address.	Mixed domains can break links and trigger browser warnings.	**One domain with secure links.**
The footer appears to say All right reserved, and article previews appear to end in double dots.	Typos on a medical site reduce trust.	**Proofread copy.**
Testimonials appear to be five images with names only, insurance accepted appears with no list of insurers, and the map appears to be a static image.	Thin proof and a static map make it harder for patients to choose and find you.	**Dated reviews, a list of insurers and an interactive map.**

What your new website will do for Smile Al Reem Dental Center

- Clean hours.
- One domain.
- Reviews, insurers and map.

How it works

1. **15 minute call**
   I show you a preview of your new design. No cost.
2. **Approve the look**
   You pick changes. I build in days, not months.
3. **Launch and track**
   Booking, WhatsApp and forms tested on mobile before go live.
