WEBSITE GROWTH AUDIT

Harley Street Dental Studio

harleystreetdentalstudio.com | London | Prepared for the Harley Street Dental Studio team

You have booking, WhatsApp and awards, but dead menus and unfinished text on a Harley Street page cost credibility with high value patients.

What I found on your website

What I saw	What it costs you	The fix
About, Before and After, Prices and Dental Implants in the menu link to #. The Before and After section shows no images on the homepage.	Patients looking for results and prices click and get nothing.	**Working pages with real results and prices.**
The cookie banner shows unfilled text {title} and Manage {vendor_count} vendors, and This field is for validation purposes appears three times.	Template code on a premium site looks careless.	**A clean banner and tidy forms.**
The page claims 800+ Google reviews but shows six, each cut off. It says annual winner of awards while the list shows one win and several finalist places from 2014 to 2018.	Overstated proof can lose trust with careful patients.	**Accurate, current proof and a full review wall.**
Award logos are labelled Thank You Page, the same heading appears twice, and the patient story video shows a placeholder.	Small errors dilute a premium image.	**Correct image text and working video.**
