WEBSITE GROWTH AUDIT

Museum Dental

museumdental.ca | Annex and Yorkville, Toronto | Prepared for Dr Christakos, Dr Nikoletos, Dr Walton and the team

A named team and recent Toronto top dentist awards are strengths, but a request only booking flow and small inconsistencies appear to cost you patients.

What I found on your website

What I saw	What it costs you	The fix
No booking form appears on the page: the only booking option is a Request An Appointment button that leads to another page, with no WhatsApp or live chat.	Every extra click before booking loses patients who want to book now.	**Instant booking on the page.**
Dr. Nicholette Nikoletos is spelled Nikoletta in her own bio, and the award source reads Post City Magazine in one place and Post City Magazines in another.	Name slips on a dentist's own page weaken trust.	**Proofread bios with consistent names.**
Testimonials appear with first names only and no dates, the awards have no links to the publications, and the footer copyright shows no year.	Unverifiable proof reads as less believable.	**Dated reviews linked to Google and award sources.**
The mobile menu appears to use javascript:void(0), the Team and About Us menu items point to pages with mismatched names, and opening hours are repeated twice.	Navigation friction and repeated blocks cost mobile visitors.	**Clean navigation and one hours block.**

What your new website will do for Museum Dental

- Booking on the page with WhatsApp.
- Verified reviews and linked awards.
- Clean mobile menu and consistent names.

How it works

1. **15 minute call**
   I show you a preview of your new design. No cost.
2. **Approve the look**
   You pick changes. I build in days, not months.
3. **Launch and track**
   Booking, WhatsApp and forms tested on mobile before go live.

Book your 15 minute preview call
