WEBSITE GROWTH AUDIT

Medspa Beauty Clinic

medspa.co.uk | London, UK | Prepared for the Medspa team

A Notting Hill laser clinic with 490+ Google reviews appears to lose bookings to dead menu links, blank images and a booking form with no visible fields.

What I found on your website

What I saw	What it costs you	The fix
Menu dropdowns for Hydrafacial, Laser Hair Removal, Face, Body, Massage, Waxing and Skin Concerns appear to link to #.	Visitors cannot reach the pages that sell the treatments.	**Working links to every treatment page.**
Many images appear blank, an Everything You Need in One Place section appears empty, and hello world! text appears.	Blank areas and leftover text make a paid clinic look unfinished.	**Real images and removal of leftover text.**
The consultation section appears to say Pop in your details but show no fields, and Book Now appears to go to several different pages.	Clients who cannot find the form leave without booking.	**One clear booking flow with a working form.**
Only four reviews appear against a 490+ claim, and typos such as skin need's appear.	Thin visible proof and typos weaken the strongest claim.	**More review quotes and proofread copy.**

What your new website will do for Medspa Beauty Clinic

- Working menu links.
- Real images and a clean page.
- One booking flow and more reviews.

How it works

1. **15 minute call**
   I show you a preview of your new design. No cost.
2. **Approve the look**
   You pick changes. I build in days, not months.
3. **Launch and track**
   Booking, WhatsApp and forms tested on mobile before go live.

Book your 15 minute preview call
