WEBSITE GROWTH AUDIT

Beautica Dental Center

beauticadental.com | Abu Dhabi | Prepared for the Beautica team

Beautica has eight named doctors and a full range of treatments, but the homepage shows zeros, copied text and dead links.

What I found on your website

What I saw	What it costs you	The fix
Counters appear to show 0 for patients, doctors and Google reviews. The testimonials area shows placeholder text (Award, Type, Project).	Zeros and placeholders make a clinic look unfinished, the opposite of proof.	**Real numbers, Google reviews and patient stories.**
Service text is in the wrong place: root canal text under Aesthetic and Cosmetic, crowns under Bridges, braces under Scanners. Several sentences stop mid way.	Patients reading about veneers or implants get confused and leave.	**One accurate page per treatment.**
Logo, slider and many card links go to # or are empty. Images use dummy.png and the alt text says 'denatal'.	Broken links and weak SEO lose both visitors and Google traffic.	**Working links and proper image text.**
The contact form shows only a privacy line, no visible fields. No email is listed. No before and after.	Patients who want a form or email have no option except WhatsApp or phone.	**A short form, one booking path and a results gallery.**

What your new website will do for Beautica Dental Center

- Real counters, reviews and before and after proof.
- One accurate page per treatment, with a booking form and WhatsApp.

How it works

1. **15 minute call**
   I show you a preview of your new design. No cost.
2. **Approve the look**
   You pick changes. I build in days, not months.
3. **Launch and track**
   Booking, WhatsApp and forms tested on mobile before go live.
