WEBSITE GROWTH AUDIT

Cosmedic Center

cosmediccenter.com | Doha | Prepared for the Cosmedic Center team

Your homepage promotes dermatology, aesthetics and surgery, but the menu is mostly dead and a patient has no easy way to book or call.

What I found on your website

What I saw	What it costs you	The fix
Botox, Rhinoplasty and the other service menu items link to #.	A patient who taps the treatment she came for lands nowhere and leaves.	**Working treatment pages, one per service.**
No phone number or WhatsApp on the page. Booking is only a link to /appointments/.	Qatar patients expect WhatsApp, and every missing channel loses enquiries.	**Click to call, WhatsApp and a short form on every page.**
No reviews, no before and after, no named doctors. Images are generic icons, not your clinic.	Surgery and aesthetic patients choose on proof and who treats them.	**Doctor profiles, real photos and captioned results.**
The menu repeats, brand is Centre and Center, the About text shows stray symbols, and the email icon goes to follow.it.	Small slips on a medical site make patients doubt the care.	**Clean copy and correct links.**

What your new website will do for Cosmedic Center

- Working service pages with a book now button on each.
- Phone, WhatsApp and a form on every page, plus doctor profiles and results.

How it works

1. **15 minute call**
   I show you a preview of your new design. No cost.
2. **Approve the look**
   You pick changes. I build in days, not months.
3. **Launch and track**
   Booking, WhatsApp and forms tested on mobile before go live.
