WEBSITE GROWTH AUDIT

Guards Real Estate

guardsrealestate.com | London | Prepared for the Guards team

A Berkeley Square office and good listings, but the homepage still shows loading messages, template code and no way to book a valuation inline.

What I found on your website

What I saw	What it costs you	The fix
'Loading...' shows twice. Template text such as _add_Lettings, _menu_ and _close_ leaks into the page.	A vendor choosing an agent in Mayfair judges you on polish in seconds.	**Clean templates and fast loading content.**
The 'Book Viewing' box shows 'Oops! There was an error' with no visible fields. There is no valuation form, only a Book Valuation link.	Every extra step loses a vendor who is ready to list.	**Short valuation form on the page and a tested viewing form.**
All six accreditation badges link to the homepage. No reviews or testimonials. WhatsApp is only an icon with no label.	Badges that prove nothing and no reviews weaken trust.	**Real certificates, Google reviews and a labelled WhatsApp button.**
Typos 'Thankyou' and 'Invesment'. Brand shows as Guards London and Guards Real Estate. Make An Offer goes to /payments.	Small errors on a prime agency page cost credibility.	**Consistent brand and copy.**

What your new website will do for Guards Real Estate

- A valuation form on every page and a working viewing form.
- Reviews, real accreditation links and clear WhatsApp contact.
