WEBSITE GROWTH AUDIT

Eleven Dental

elevendental.ca | Toronto, Canada | Prepared for Dr Daria and team

A Yorkville spa dentistry clinic appears to lose bookings to dead menu items, mixed booking messages and unnamed proof.

What I found on your website

What I saw	What it costs you	The fix
The About and Oral Surgery menu items appear to link to #, and one Learn More card appears to link to the wrong service page.	Patients exploring the clinic or treatments hit dead ends.	**Working pages behind every menu item.**
The header pushes Book Online while the FAQ appears to say to call to book, and the contact form appears to have no appointment type or preferred time.	Mixed messages and a thin form lose ready patients.	**One clear booking path and a complete form.**
The brand appears as Eleven Dental, 11 Dental and 11 Dentistry, and typos such as Stop going to the dentist come to Eleven appear.	Mixed names and typos weaken trust.	**One brand name and proofread copy.**
Seven reviews appear with no total rating, doctors appear named only in reviews, and most images appear to be blank placeholders.	Patients want to see who treats them and see real photos.	**Named dentists, a rating summary and real images.**

What your new website will do for Eleven Dental
