WEBSITE GROWTH AUDIT

MGM Medical Centre

cattymedia.wixsite.com/mgmmedical | Sharjah, UAE | Prepared for the MGM Medical Centre team

A Sharjah medical and dental centre appears to lose new patients to a free builder address, an empty email label and no online booking or WhatsApp.

What I found on your website

What I saw	What it costs you	The fix
The site appears to run on a free Wix address, with a banner that says This website was created by CattyMedia.	A free builder address and an agency banner look temporary for a centre founded in 2016.	**Your own domain and a clean header.**
The contact section appears to show an empty E-mail label above the real email, and the fax number appears to be the same as the phone number.	Small errors in the contact section are where a patient decides to call, and they erode trust.	**A clean, correct contact section.**
The menu appears to be full of BMI and calorie calculators, and a service called Upcoming Services appears.	Patients came to book a doctor, and calculators and empty promises hide your dental and doctor services.	**Doctor and dental pages first, with clear booking.**
No online booking and no WhatsApp appear, only a phone number.	Patients who want an appointment out of hours cannot book, and they book where they can.	**Online booking on the page and a WhatsApp button.**

What your new website will do for MGM Medical Centre

- Own domain.
- Clean contact and services.
- Booking and WhatsApp.

How it works

1	**15 minute call** I show you a preview of your new design. No cost.
2	**Approve the look** You pick changes. I build in days, not months.
3	**Launch and track** Booking, WhatsApp and forms tested on mobile before go live.
