WEBSITE GROWTH AUDIT

ADG Legal

adglegal.com | Dubai, UAE | Prepared for the ADG Legal team

A Dubai headquartered law firm with offices in Abu Dhabi, Egypt and London appears to lose enquiries to mixed language menu labels and stray page code.

What I found on your website

What I saw	What it costs you	The fix
Russian menu labels appear in the English navigation on the same line as the English ones.	A mixed menu confuses visitors and looks like a template error.	**A clean language switch.**
Stray markup characters appear to show in the page text near the menu.	Broken code looks careless on a firm that sells precision.	**Clean template markup.**
The leading firm claim appears to repeat in several headings with no rankings or reviews shown.	Repeated claims without proof lose to firms that show results.	**One claim backed by rankings and results.**
No WhatsApp or direct consultation booking appears.	Busy executives leave when the next step is not obvious.	**One consultation button and WhatsApp.**

What your new website will do for ADG Legal

- Clean menu and language switch.
- Clean markup.
- Proof and consultation booking.

How it works

   You pick changes. I build in days, not months.
3. **Launch and track**
   Booking, WhatsApp and forms tested on mobile before go live.
