WEBSITE GROWTH AUDIT

The Harley Street Skin Clinic

harleystreetskinclinic.com | Devonshire Place, London | Prepared for the clinic team

A large patient count, a WhatsApp option and a wide menu are strengths, but exposed PHP warnings and dead menu headings appear to cost you patients.

What I found on your website

What I saw	What it costs you	The fix
The team section shows raw PHP warnings, including 'Warning: Trying to access array offset on value of type null' and a server file path.	Technical errors on a medical page look careless and expose server details.	**A clean team section with no errors.**
The Treatments and Conditions menu items link to #, and categories such as Breasts and Digestive Health contain only a View All link.	Patients browsing treatments hit dead ends.	**Working menus and finished category pages.**
The body phone link is tel:0207436441, one digit short of the footer number, and the opening hours differ between the body and the footer.	A patient who taps to call may reach the wrong line, and mixed hours cost visits.	**One checked number and one set of hours.**
Over 61,329 patients agree appears twice, Mons Pubic Lift is misspelled, and image text reads 'image title' and 'alt'.	Repeated lines, typos and placeholders weaken a premium brand.	**Proofread copy and real image descriptions.**

What your new website will do for The Harley Street Skin Clinic

- A clean team section and working menus.
- One checked phone number, hours and a direct enquiry form.
- Proofread copy with real image descriptions.

How it works

1. **15 minute call**
   I show you a preview of your new design. No cost.
2. **Approve the look**
   You pick changes. I build in days, not months.
3. **Launch and track**
   Booking, WhatsApp and forms tested on mobile before go live.

Book your 15 minute preview call
