WEBSITE GROWTH AUDIT

ABK Real Estate

abkre.qa | Al Sadd, Doha | Prepared for the ABK Real Estate team

ABK Real Estate has a working property search and active listings. The site leaks leads: the contact links are placeholders and there is no WhatsApp, which is how Qatar property buyers prefer to ask.

What I found on your website

What I saw	What it costs you	The fix
The footer email link points to contact@mysite.com and the footer phone link to tel:123-456-7890. Both are template placeholders, while the visible text shows your real details.	A buyer who taps the email or phone link reaches nobody, and you lose a lead you paid to attract.	**Correct, tested links across the whole site.**
There is no WhatsApp button anywhere. The enquiry forms show no visible labels or privacy note, and Inqiure Now is a typo.	Property buyers in Doha message on WhatsApp first. Without it, they message the next agency.	**WhatsApp on every listing, plus a clear enquiry form with a confirmation message.**
No testimonials, agent profiles or licence number appear, and the News and several popup links go to #.	Buyers and landlords trust agents they can see. Anonymous agencies lose the listing to a named competitor.	**Agent profiles, client reviews and your licence number on the homepage.**
Typos and repeats: Commmercial, AlMuraikh, duplicate locations such as Wukair and Wakair, listing text cut off mid sentence, and the same featured listings shown twice.	Unfinished listings and typos make the agency look careless to a buyer comparing agencies.	**Clean, proofread listings and one consistent location list.**

What your new website will do for ABK Real Estate

- A lead first homepage: property search, WhatsApp on every listing and a clear enquiry form.
- Agent profiles, client reviews and licence details that make buyers trust you before the first call.
- Area pages written to rank for searches like apartments for rent in Al Sadd Doha.

How it works

1. **15 minute call**
   I show you a preview of your new design. No cost.
2. **Approve the look**
   You pick changes. I build in days, not months.
3. **Launch and track**
   Booking, WhatsApp and forms tested on mobile before go live.
