WEBSITE GROWTH AUDIT

Smile Spa Dental Clinic

smilespadubai.ae | Festival City, Dubai | Prepared for Dr. Luai Mahaini and team

Smile Spa has strong proof: a 4.8 Google rating from 184 reviews and real veneer cases. The page does not turn that proof into booked appointments yet.

What I found on your website

What I saw	What it costs you	The fix
The only form asks for name, phone and message, with no date, time or treatment. Booking buttons go to anchors on the same page.	A patient ready to book still has to wait for a callback, and many will choose a clinic with instant booking.	**A booking form with treatment, date and time, plus a confirmation message.**
The service headings (Dental Implants, Cosmetic Dentistry, Orthodontic Braces) have no descriptions, prices or links, and everything sits on one long page.	Patients searching for a specific treatment land on a page that does not answer them, and you rank for none of them.	**One page per treatment, written to rank for searches like veneers Dubai.**
Typos and garbled copy: dental toursim, crowns,bridges, Polyclinic dubai, and a doctor bio that reads Dr Mahaini conferences speaker as Certified Speaker for Absoanchor.	Errors in a clinical page make patients doubt the care that goes into the treatment.	**A proofread build with clear doctor profiles.**
Several links go to # (the Services menu, doctor cards and the footer), and no email address is shown anywhere.	Dead links lose visitors, and patients who prefer email have no way to reach you.	**Working links everywhere and a visible contact email.**

What your new website will do for Smile Spa Dental Clinic

- A proof first homepage that puts your 4.8 rating and veneer cases beside every booking button.
- Real online booking with date and time, plus WhatsApp, so a patient books in under 30 seconds.
- A page per treatment and per doctor, written to rank in search and answer what patients ask.

How it works

1	**15 minute call** I show you a preview of your new design. No cost.
2	**Approve the look** You pick changes. I build in days, not months.
3	**Launch and track** Booking, WhatsApp and forms tested on mobile before go live.
