WEBSITE GROWTH AUDIT

Marylebone Implant Centre

maryleboneimplantcentre.co.uk | Devonshire Place, London | Prepared for the Marylebone Implant Centre team

Marylebone has 213 Google reviews at 5 stars, a clear new patient offer and a fees page. Stale notices, empty media slots and small errors reduce the impact of strong proof.

What I found on your website

What I saw	What it costs you	The fix
A Christmas notice still says the clinic will open on 5th January 2026. The page also shows Last Updated on August 3, 2026.	An out of date holiday notice tells a patient that nobody is looking after the site, and they may doubt whether the clinic is currently open.	**Current notices and a single accurate last updated date.**
Three video slots, the quote graphic and the before and after images load as empty placeholders as I saw them, and stray labels such as Top show.	Implant patients look for real results and real people. Empty media slots hide the proof you already have.	**Working videos, captioned before and after cases and a clean page with no stray labels.**
Email addresses show as when scripts do not run. The BOOK AN APPOINTMENT button goes to a different page than the other booking links.	A patient who cannot see an email or is sent to different booking pages hesitates, and a callback request delays the booking.	**A visible email, one booking path and real time booking with confirmation.**
Typos and inconsistency: incredible happy, Dr.Santos, Teeth in a Day and teeth-in-a-day, and Dental Implants London repeated so often it reads as keyword stuffing.	Small errors and repeated keywords weaken trust, and patients who prefer messaging have no route.	**A proofread build with natural copy and WhatsApp as a second route.**

What your new website will do for Marylebone Implant Centre

- A proof first homepage that puts your 213 reviews, fees and real results beside every booking button.
- One clear booking path with WhatsApp, so a patient books in under 30 seconds.

How it works

1. **15 minute call**
   I show you a preview of your new design. No cost.
2. **Approve the look**
   You pick changes. I build in days, not months.
3. **Launch and track**
   Booking, WhatsApp and forms tested on mobile before go live.
