WEBSITE GROWTH AUDIT

Bourgeois Dental Clinic

bourgeoisclinic.com | Sheikh Zayed Road, Dubai | Prepared for Dr. Nour and team

Bourgeois has a 4.9 Google rating from 274 reviews, ten recent results and a WhatsApp number. Broken policy links and uncaptioned results hold back a clinic that already has strong proof.

What I found on your website

What I saw	What it costs you	The fix
The Privacy Policy and Terms and Conditions links both go to the homepage, and the Google Maps link uses a placeholder looking ID (cid=123456789).	Missing policy pages are a trust and compliance risk, and a wrong map link sends patients to the wrong place.	**Real policy pages and a verified map link.**
The ten Recent Results images are labelled only Case 1 to Case 10, with no treatment names, timelines or patient context.	Cosmetic patients decide on what was done and how long it took. Bare numbered photos do not tell them.	**Captioned before and after cases with treatment and timeline, with patient consent.**
No booking form appears on the homepage, and the contact overlay shows only a Submit button with no visible fields. Opening hours appear only in the FAQ.	A patient ready to book has to open another page, and a form with no fields loses the enquiry.	**A short booking form on the homepage with visible fields, hours nearby and WhatsApp.**
The TikTok address reads @bourjeois.clinic, the footer says Bourgeois Clinic while the site says Bourgeois Dental Clinic, and a review spells the doctor Dr Noor while the site says Dr. Nour.	Inconsistent names and a misspelled social handle make a patient unsure they have found the right clinic.	**One consistent brand name and correct social links.**
