WEBSITE GROWTH AUDIT

beyondental

beyondental.com.au | Park Street, Sydney CBD | Prepared for the beyondental team

beyondental has a cosmetic dentistry page and a general enquiry form. The page shows no proof and has visible errors, which cost cosmetic patients who are comparing clinics.

What I found on your website

What I saw	What it costs you	The fix
No reviews, before and after photos, accreditations or dentist names appear. Images look like stock photos of smiling people, not your clinic.	Cosmetic patients want to see real results and who will treat them. Stock photos tell them nothing.	**Real clinic photos, consented before and after cases and named dentists.**
Most booking buttons go to an external portal, the header Book an appointment goes to a different page, and the enquiry form states no response time.	Patients who are sent to different places or never told when you will reply book elsewhere.	**One booking path on your own site with a stated response time.**
A shopping cart showing $0.00 0 Cart appears twice, and the cart link goes to #. A stray x and dash show near the top.	An empty cart on a dental clinic page looks unfinished and raises doubts about the care.	**Remove the cart and clean up the header.**
Typos include eyondental's missing its first letter and Our composite bonding are designed. Several crown and whitening images use children's dentistry icon text. No from prices are shown.	Typos in your own name and no price guidance push patients to clinics that are clearer.	**A proofread build with from prices for key treatments.**

What your new website will do for beyondental

- A proof first page with real photos, named dentists and captioned results beside every booking button.
- One on site booking path with from prices.

How it works

1. **15 minute call**
   I show you a preview of your new design. No cost.
2. **Approve the look**
   You pick changes. I build in days, not months.
3. **Launch and track**
   Booking, WhatsApp and forms tested on mobile before go live.
