WEBSITE GROWTH AUDIT

Bright Way Dental Clinic

www.brightway.clinic | Al Garhoud, Dubai | Prepared for Dr. Hasan A. Mahdy

Bright Way has strong doctors, real offers and a good location. The website does not turn that into booked appointments yet. These are the gaps I saw on your public site, and how I would close them.

What I found on your website

What I saw	What it costs you	The fix
Every Book an Appointment button opens a popup with a message form only: name, email, message. No date, no phone field.	A patient ready to book has to wait for a reply, and many will message the next clinic on Google Maps instead.	**Booking form with preferred date and time, service and phone, sent to you instantly.**
No WhatsApp button anywhere. Only two phone numbers are listed.	In Dubai most patients prefer WhatsApp. They will not call a number from a website.	**One tap WhatsApp button on every page, with a pre-filled message per treatment.**
Mission, Vision and Approach sections appear twice. Typos such as MakesBright Way and DentistrySmarter. LinkedIn and Our Services links go nowhere.	A clinic is judged by how careful it looks. Errors make new patients doubt the care they will get.	**Clean, proofread pages and working links, with the structure rebuilt around treatments.**
Only two testimonials, both for one doctor, and the smile gallery shows no before and after images.	Implant and cosmetic patients decide on proof. Thin proof means more price shopping.	**Review wall pulled from your real Google reviews and a before and after gallery.**

What your new website will do for Bright Way Dental Clinic

- A fast, modern homepage that leads with your top treatments (implants, cosmetic dentistry, orthodontics) and the offer you want to push.
- Online booking and WhatsApp on every page, so a patient can book in under 30 seconds on a phone.
- A page per treatment and per doctor, written to rank for searches like dental implants Dubai.
- Proof first layout: Google reviews, before and after cases and insurance logos near every booking button.

How it works

1. **15 minute call**
   I show you a preview of your new design. No cost.
2. **Approve the look**
   You pick changes. I build in days, not months.
3. **Launch and track**
   Booking, WhatsApp and forms tested on mobile before go live.
