WEBSITE GROWTH AUDIT

Kharsa Clinics

kharsaclinics.com | Olaya, Riyadh | Prepared for the Kharsa Clinics team

Kharsa Clinics has 38 years of history, 30,000 smiles and 24 before and after cases. Leftover text, broken profile links and misspellings weaken a clinic that has this much to show.

What I found on your website

What I saw	What it costs you	The fix
Stray text appears at the top and bottom of the page: Dear User, an in-app browser notice, and For better web experience please use portrait mode. The newsletter field shows youremail@gmail.com as visible text.	Leftover system messages make a long established clinic look unmaintained at the first glance.	**A clean page with no system notices and a proper newsletter field.**
The menu and URLs say Testinomials, and the pages are labelled Testinomials-7 to -23. Terms & Conditons is also misspelled.	A misspelled Testimonials page on a clinic selling trust undermines the proof it contains.	**Correctly spelled, clean page names and URLs.**
Several profile links point to the wrong people: Mona Taher links to another profile, and five staff profiles use the same chris-don slug. Doctors named in reviews, such as Dr Manal, are not in the roster.	A patient who clicks a doctor and lands on someone else, or finds no one, loses confidence in the whole clinic.	**Correct profile pages for every doctor and a roster that matches your reviews.**
Booking goes to a separate page with no inline form. The 24 before and after cases are bare links with no captions or outcomes, and several sections appear twice.	Every extra click costs bookings, and uncaptioned results do not prove what you did for each patient.	**A booking form in the hero and captioned before and after cases beside it.**

What your new website will do for Kharsa Clinics

- A proof first homepage that turns 38 years, 30,000 smiles and 24 cases into captioned, visible results.
- A booking form in the hero plus WhatsApp, so a patient books in under 30 seconds.
- Correct doctor profiles and treatment pages in Arabic and English written to rank in search.

How it works

1	**15 minute call** I show you a preview of your new design. No cost.
2	**Approve the look** You pick changes. I build in days, not months.
3	**Launch and track** Booking, WhatsApp and forms tested on mobile before go live.
