WEBSITE GROWTH AUDIT

Motei & Associates

motei.com | Tecom, Dubai | Prepared for the Motei & Associates team

Motei & Associates has 20+ years of reputation and a clean layout. The homepage does not turn visitors into consultations yet, and visible errors weaken the trust a law firm depends on.

What I found on your website

What I saw	What it costs you	The fix
The proof counters (Cases, Sucess Rate, Countries) show 0 or Over 0 on the page, and no testimonials or named awards appear on the homepage.	A client choosing a lawyer looks for proof first. Zeros and empty claims read as a firm with no track record.	**Working counters with your real numbers, plus named client testimonials and awards.**
The E-LAWYER booking link sits in the header only. The hero has no main button, and WhatsApp is a small icon.	A prospect who is ready to enquire has no obvious next step and moves to the next firm in the search results.	**One clear Book a Consultation button above the fold, with WhatsApp beside it.**
Typos: Sucess Rate, Estate Planing in the menu and dropdown, Dispute Resolution text cut off mid word, and 22 years in one place and 23 in another.	A law firm sells precision. Small errors make clients doubt the care taken with their case.	**A proofread build with one consistent set of facts.**
The whole Services block appears twice, three menus repeat, and Real Estate links to two different pages.	Repeated and doubled pages confuse visitors and split your Google ranking between pages.	**One clean structure, one page per service, written to rank for searches clients actually make.**

What your new website will do for Motei & Associates

- A proof first homepage: real numbers, named partners, client testimonials and awards near every enquiry button.
- One tap booking and WhatsApp on every page, so an enquiry takes under 30 seconds on a phone.
- A page per practice area, written to rank for searches like corporate lawyer Dubai and DIFC wills.

How it works

1. **15 minute call**
   I show you a preview of your new design. No cost.
2. **Approve the look**
   You pick changes. I build in days, not months.
3. **Launch and track**
   Booking, WhatsApp and forms tested on mobile before go live.
