WEBSITE GROWTH AUDIT

Pro Dental Clinic

prodentalclinic.london | Harley Street, London | Prepared for the Pro Dental team

Pro Dental has a Harley Street address, clear consultation calls to action and a chat widget. Empty proof sections and dead links hurt a premium clinic where trust decides the booking.

What I found on your website

What I saw	What it costs you	The fix
The Proudly featured in logo strip shows only empty placeholder images, and the before and after images appear to be blank placeholders. No written reviews or named clinicians appear.	A patient choosing an implant or smile clinic on Harley Street looks for proof and for who will treat them. Empty proof sections tell them nobody has vouched for you.	**Real media logos, captioned before and after cases, Google reviews and named clinicians.**
About Us, Treatments, Pricing and Gallery in the menu link to #, and the Gallery link appears twice.	Dead menu links lose visitors who want prices or results, which are the two things patients search for first.	**Working menu pages for each section, starting with pricing and results.**
Booking sends the patient to an external portal (aeronaclinic.co.uk) instead of an on page form, and the Harley Street email is plain text with no link.	Sending a patient to a different brand's site breaks trust, and an email they cannot tap loses enquiries.	**A booking form on your own site and tappable email and phone links.**
The footer says Goucestershire instead of Gloucestershire, All- On-4 has a stray space, and the phone link contains spaces so it may not dial on some devices.	Typos and a phone link that fails make a premium clinic look careless at the moment a patient decides to call.	**A proofread build with tested phone links.**

What your new website will do for Pro Dental Clinic

- A proof first homepage: real media logos, captioned results and Google reviews beside every booking button.
- Booking on your own site with a short form, WhatsApp and chat, so a patient books in under 30 seconds.
- Treatment and pricing pages written to rank for searches like dental implants Harley Street and All-on-4 London.

How it works

1. **15 minute call**
   I show you a preview of your new design. No cost.
2. **Approve the look**
   You pick changes. I build in days, not months.
3. **Launch and track**
   Booking, WhatsApp and forms tested on mobile before go live.
