What I found on your website

What I saw	What it costs you	The fix
Every main button points to #enquire, and the page describes a message only flow. No consultation fee or price is shown anywhere.	A patient who cannot book directly or see a price hesitates, and many will pick a clinic with instant booking.	**Online booking with date and time, and starting prices for top treatments.**
The FAQ says you are open including public holidays, then says you are closed on National Day and two Eid holidays. The footer hours read Monday to Sunday09:00 to 21:00.	Contradictory hours cause wasted visits and bad reviews.	**One accurate set of hours shown the same everywhere.**
The client avatars use demo file names (sl-demo) and appear to be placeholders. Review excerpts name Dr Ella, Dr. Ella and Ela.	Demo content next to real reviews makes visitors wonder which proof is real.	**Only real, named patient proof, with consistent doctor names.**
There are no before and after results and no Instagram or Facebook links. The footer WhatsApp icon is an empty link.	Aesthetic patients decide on visible results and on social proof they can check.	**A captioned results gallery, working social links and a labelled WhatsApp button.**

What your new website will do for The Skin Lab

- A booking first homepage with online scheduling, WhatsApp and starting prices.
- Real proof beside every button: your 4.8 rating, named reviews and captioned results.
- Treatment pages written to rank for searches like Botox Abu Dhabi and laser hair removal Abu Dhabi.
