RISETRACK

Summary and prices

Your priorities: the essentials for a solid app that earns revenue. A price per item, in Canadian dollars (CAD), and the choice to pay little by little.

Prepared for	Prepared by	Date	Currency
Amazigh	Up Agency	October 19, 2026	Canadian dollars (CAD)

Thank you for your list and your priorities. You told me the most important things are **the Premium subscription, the notifications and the important bugs**, after the small touches. Here is exactly that, in small steps, with a price for every item. **All prices are in Canadian dollars (CAD).**

1 How it is organized

Step A: live right away

The small touches and reliability. These changes are made on the website side: they appear in the app as soon as I publish them, **without waiting for Apple**.

Step B: one single Apple update

The subscription, the notifications, the account deletion and the logo. Everything is grouped in **one single version**, so one single Apple review, faster and safer.

> **Your Apple approval is protected:** everything is tested on iPhone before sending, with only the Camera and Photos permissions, email and password login, and a subscription that follows Apple's rules.

2 Step A: small touches and reliability

#	WHAT YOU GET	WHEN	PRICE
A1	"Edit with Base44" badge removed and the text at the top of the screen fixed on iPhone	Live as soon as published, no Apple wait	**$100 CAD**
A2	Habits that carry over from one week to the next, and protection against duplicates	Live as soon as published	**$130 CAD**
A3	Full check of the app and fixing of the important bugs (up to 4 hours)	Live as soon as published	**$200 CAD**
	Total step A		**$430 CAD**

3 Step B: subscription, notifications and logo

#	WHAT YOU GET	WHEN	PRICE
B1	Complete account deletion (required for Apple to accept the subscription)	In the Apple update	**$100 CAD**
B2	Premium subscription, base version: monthly and yearly with real Apple payment, price page, restore purchases	In the Apple update	**$1,000 CAD**
B3	Free trial and a polished price page	In the Apple update	**$200 CAD**
B4	Notifications: real reminders on iPhone, even when the app is closed	In the Apple update	**$380 CAD**
B5	Logo enlarged to properly fill the icon and the launch screen	In the Apple update	**$70 CAD**
	Total step B		**$1,750 CAD**

Sending to Apple, testing on iPhone and handling any Apple remark are included in step B.

4 Preview: enlarged logo (item B5)

Left: today, the logo leaves a lot of black around it. **Right:** the enlarged logo fills the icon better, like the other apps.

Preview made from your screenshot, the final version will be sharp and high quality.

5 Your options, depending on your budget

START	REVENUE	COMPLETE ESSENTIALS
Step A only	**A + subscription**	**A + B**
$430 CAD	**$1,600 CAD**	**$2,180 CAD**
The small touches, the habits and the important bugs, live right away.	Step A, account deletion, base Premium subscription and logo. To start earning money.	Everything you asked for as essential, with the free trial and the notifications.

Optional, on any option: **a real welcome page before sign in** (your point 1), website side, **$200 CAD**.

6 Paying little by little

You do not have to pay everything at once. Each item is paid separately, **before I start that item**. The big items are split into several payments. Nothing starts without your payment and your written agreement in our conversation, and you get a receipt every time.

ITEM	PAYMENT	WHEN
A1	$100 CAD	Before starting
A2	$130 CAD	Before starting
A3	$200 CAD	Before starting
B1	$100 CAD	Before starting
B2	$350 CAD + $350 CAD + $300 CAD	At the start, when the subscription works in the test version, then when sent to Apple
B3	$200 CAD	Before starting
B4	$190 CAD + $190 CAD	At the start, then when the reminders work in the test version
B5	$70 CAD	Before starting

Payment method: the one we already used (Sendwave), or another method we agree on together.

7 What I need from you

- Your choice: Start, Revenue or Complete essentials (and the welcome page as an option or not).
- For the subscription: the prices you want (monthly and yearly), and the Apple “Paid Apps” agreement active in your App Store Connect account with your bank and tax details.
- Your written agreement in our conversation, and payment of the item concerned, before starting.

> **Not included** (to look at later, when the app earns revenue): full modern design, redone tracker, simplified My Journey page, shareable progress cards, new App Store screenshots. Anything added after this agreement gets a small separate offer.
