WEBSITE GROWTH AUDIT

The Address Property Management

theaddresspm.wixsite.com/theaddresspm | Toronto, Canada | Prepared for the Address Property Management team

A Toronto property manager appears to lose landlords to a free builder address, a stale 2021 blog headline and no WhatsApp.

What I found on your website

What I saw	What it costs you	The fix
The site appears to run on a free Wix address with a Wix banner, though your email uses theaddresspm.ca.	Landlords handing over a property look for a serious company, and a builder address looks temporary.	**Your own domain connected to the site.**
The homepage blog items appear to be Happy Canada Day 2021 and A Year of Real Estate Opportunities from 2021.	Old posts tell a landlord the company may not be active.	**Fresh posts or a clean results section.**
The homepage appears to explain property management in long blocks of text, and I did not see fees or landlord reviews.	Landlords want to see proof and a price range before they call.	**Short sections, reviews and a clear fee guide.**
No WhatsApp appears, and booking appears to depend on a Book Online link.	Landlords with a quick question message other managers first.	**A one tap WhatsApp button and a rental value form.**

What your new website will do for The Address Property Management

- Own domain.
- Fresh, short content.
- Reviews and WhatsApp.

How it works

1. **15 minute call**
   I show you a preview of your new design. No cost.
2. **Approve the look**
   You pick changes. I build in days, not months.
3. **Launch and track**
   Booking, WhatsApp and forms tested on mobile before go live.
